PROJECTS

Personal Playlist
https://harsh116.github.io/Personal-Playlist-react/

Technologies used: HTML, CSS, Javascript and Reactjs

- Contains some of my favorite video songs in nice interface
- Lyrics is displayed at sidepanel when clicked on title of song. Sidepanel is displayed when clicked on button "Toggle lyrics panel".
- Every song can be played at top of window on clicking up arrow-head button at top center of video song. Also there are buttons to navigate to previous and next song.
- When the repeat is toggled to all then once the song is ended then next song starts playing.

Portfolio Website
https://harsh116.github.io/Portfolio-Website.github.io/

Technologies used: HTML, CSS and Javascript

- Contains information about myself
